

Sharla spends time every morning organizing all of her different classwork for the day. Because of this wasted time, she has to stay up late working after she gets back from hanging out with friends.

Sharla's friend, Casey, tells her about an app she uses to manage her online classes!

Tyler is overwhelmed with assignments after recently moving to UCLA. Since COVID-19, he has been bombarded with assignments. He has no way to keep track of them all across his 8-10 websites he has to check on daily.

Tyler quickly became burned out after endless school work all day every week. He decided he could not handle it anymore and downloaded a new app on his computer and phone.

Sharla enters her classes and their websites into the app!

When Sharla, receives homework in class, she enters it into the app to receive reminders when its due!

Tyler is thoroughly impressed by the software as it combines all of his required websites, tells him his daily schedule, and allows him to video call his professors.

After downloading the software a week ago, Tyler has noticed improvement in his grades, tidiness, and mental health.

With all of her classes organized, Sharla can spend her time focusing on her work, without having to waste time figuring out her assignments!

Getting all of her work done in the morning, Sharla can spend her night hanging out with friends!

With the time Tyler now has available to spare, he is now able to go out with friends more frequently without being guilty. He also found a new girlfriend!

Tyler tells his new friends about the software app and they all begin to use it. Later, they thank him for introducing it to them.

Good morning rufus

Bark dogs noise

I think I have homework due in five minutes

Reeses puffs

OH I forgot, I have this new product. I can check if no problem at all!
